'Co-created Clinical Supervision - Relationship of Relationship'

Janine Piccirella - HIPC Psychotherapist, Supervisor and Trainer PTSTA, MSc. UKCP Reg. & MBACP Accred., EMDR Practitioner, Chair of EMTAG

Relational supervision is an essential part of relating and supporting our clients. Through the co-creation of the supervisory relationship we open ourselves up to awareness, spontaneity and intimacy, which in turn invites Autonomy for all relationships involved.

Together we will explore why the supervisory relationship is important, what happens between, in the middle and beyond.

At this workshop, we will understand our values and beliefs of what supervision is, what supervision is for, and how to get the most out of your relationship with your supervisor.
